

## Press Release

To: Our Utah Waterfowl Community

From: Matt Anderson, Sportsmen For Fish And Wildlife

Date: December 30, 2020

Subject: **Darin Gardner Breakfast fundraiser**

Darin Gardner our friend, taxidermist, fellow waterfowler and conservation supporter has been fighting serious health complications for the past several years. The last few months has been the biggest fight for his life. The current state of his body prevents him from sleeping, working, eating, and being able to heal itself. He is currently being cared for at the U of U Hospital. Between several trips to the ER, being admitted to the hospital, new respiratory equipment, home health care, etc. has left our friend looking for support. Medical insurance has not covered all the expenses needed to keep him alive. In addition, Darin has not been able to work over the last few months. His enduring wife, Mendy, is working full time and taking care of Darin around the clock. Please join us in supporting Darin and Mendy through this difficult chapter in their lives.

### **Breakfast in the Marsh Fundraiser:**

**Date:** 1/09/2021 Breakfast 6-8:30 AM Raffle drawing @ 9 AM
